# DUNCANEQUINE GROUP

## We know fencing like we know horses

*Our business has something in common with every customer; every member of our team is an accomplished performance horse rider/breeder and owner. We know horses! Our Stallion Rail product has the most advanced technology available on the market, providing exceptional safety for your horses and the longevity you need for years to come.*

**Our story started over 30 years ago. Director Ben Duncan decided there had to be a better and safer option for fencing his father's Thoroughbred property in a sleepy little nook south of Busselton, Western Australia. Like many horse owners, they had experienced the damage and loss of horses in wire fences.**

Ben's journey to bring his dreams into fruition and reality have seen him take many different directions along the road. Still, his passion for horses and their safety has continued to be his driving force to create the ultimate fencing system for all horse owners.

Thinking and looking outside of the square has been Ben's most vital ability. His knowledge comes from years of experience, dedication, and commitment, and this is something we can proudly say stands us above all others. Our passion for horses and their safety is still our driving force over 30 years later. Our deep love for our horses means we have committed ourselves to continuously striving for a safer option of horse fencing. Our longevity in the horse industry has given us unsurpassed reliability and credibility no other fencing company can match.

Our mission has been to develop a complete, safe horse fencing system. One that delivers the whole package and doesn't leave our customers still scratching their heads. We wanted the ultimate in safety across the entire paddock.

From rail to posts to gates and corner posts. We have researched, developed and tested our products on our horses first to make sure we deliver you products we know work.

# STALLIONRAIL

## The Smarter Alternative to Post & Rail Fencing

### LOW MAINTENANCE

Stallion Rail will not rot or deteriorate, having passed ISO 4892-2 testing. No more painting fences.

### FLEXIBLE FOR SAFETY

Stallion Rail can support horses and assist them onto their feet with minimal injury to themselves or the fencing.

### EASY & QUICK TO INSTALL

Stallion Rail is a complete fencing system that is quicker to install than timber, with installation guides provided.

### PREVENT BAD HABITS

Prevent chewing, cribbing and damage with our electrifiable options.

### ELECTRIFIABLE

Stallion Rail Ultra and Extreme have electrifiable edges.

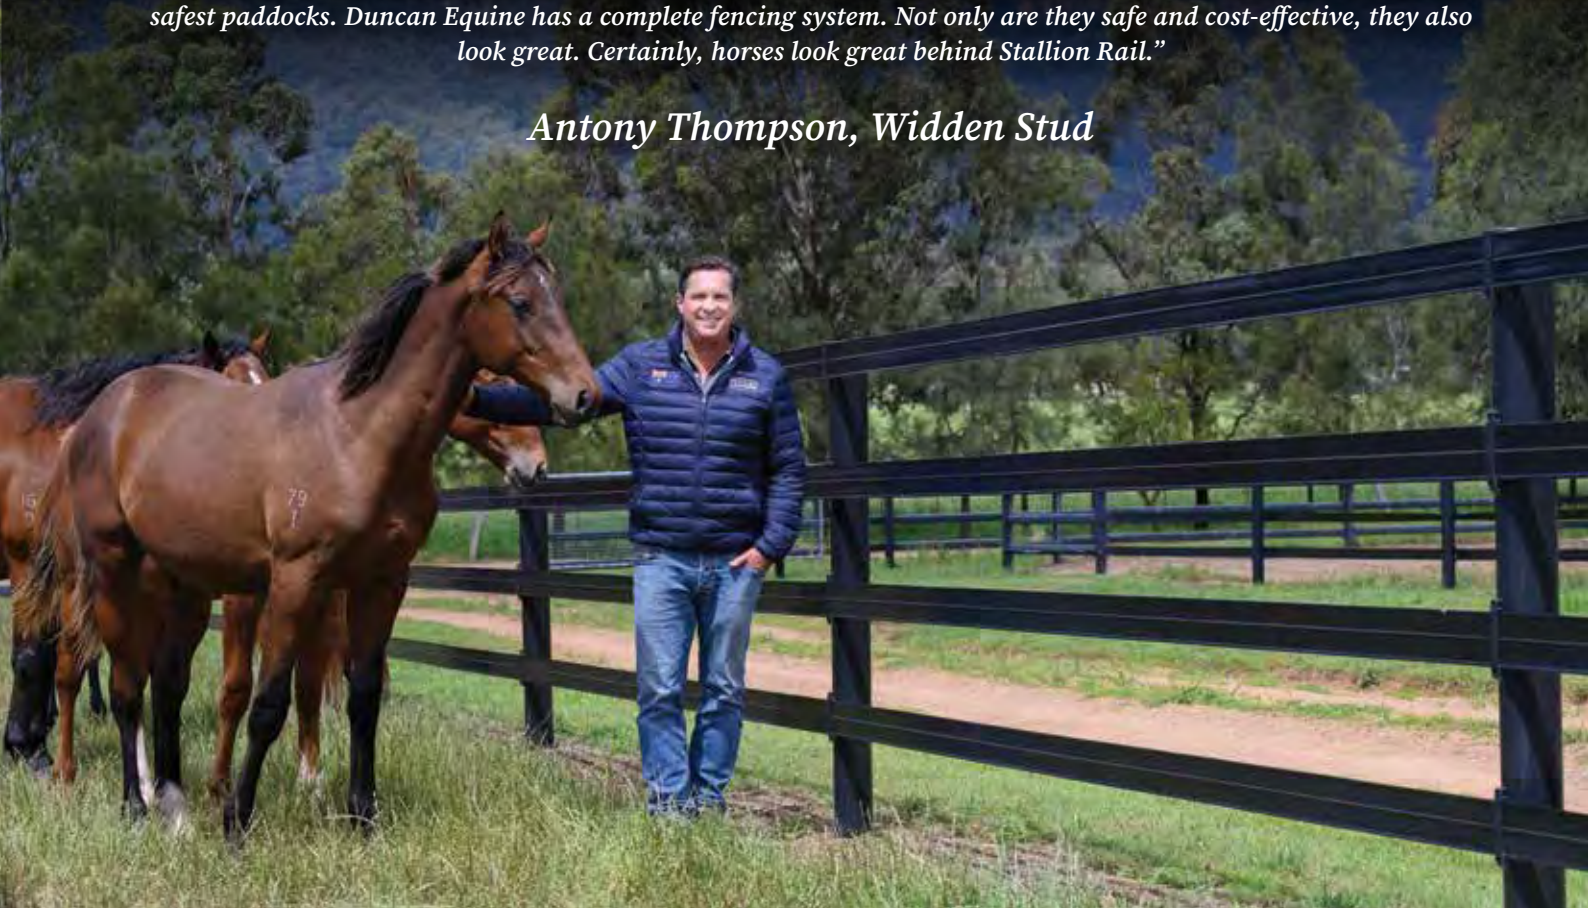

### WARRANTY

Premium Australian Warranty, 30 years for Stallion Rail and 15 years for Stallion Rail Ultra and Extreme.

*“When we looked at the Stallion Rail it seemed to solve a lot of problems. We were having trouble sourcing good-quality timber. The team at Duncan Equine have been great to deal with. There’s that level of trust, honesty and integrity. They’re happy to share their knowledge with our fencing team. With the value of horses today, it’s important to put them behind the safest fence possible. With the Stallion Rail we’ve used, I think we’ve built the safest paddocks. Duncan Equine has a complete fencing system. Not only are they safe and cost-effective, they also look great. Certainly, horses look great behind Stallion Rail.”*

*Antony Thompson, Widden Stud*

# STALLION RAIL

## EXTREME

## Stallion Rail Extreme

### Electric top and bottom

Superior flexible rail with the ability to be electrified on both the top and the bottom edge of the rail. Made using advanced technology molecular bonding of the carbon fibre to the top and bottom wires, Stallion Rail Extreme delivers superior electrical conductivity on both edges of the rail, while maintaining flexibility and low maintenance capabilities. Manufactured using premium grade UV stabilised medium density polyethylene. Suitable for all types of horses and ponies.

Colour:

Packaged on a standard pallet stacks of up to 12

4" (108 mm) wide

Weight: 100m (31kg)  
200m (62kg)

5" (133 mm) wide

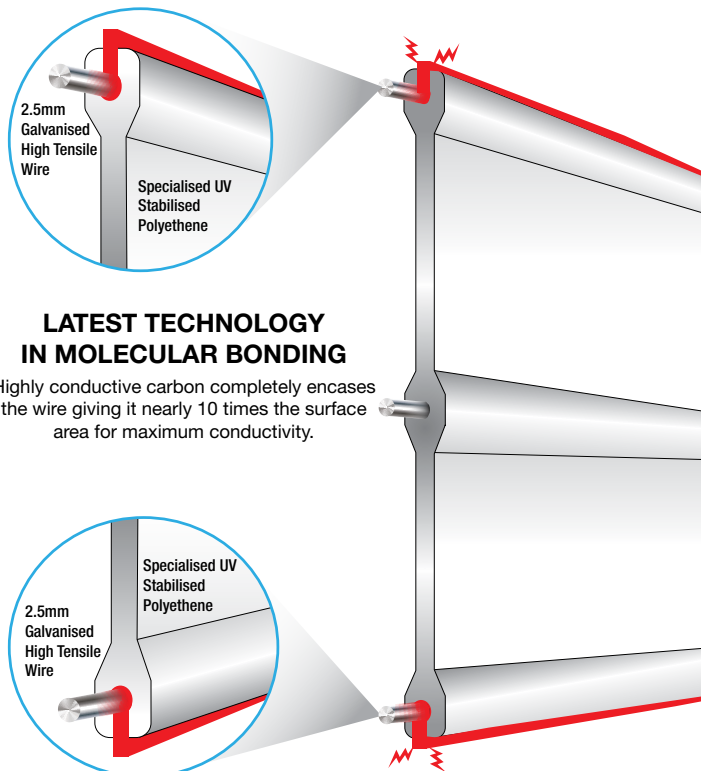

Weight: 100m (38 kg)  
200m (75 kg)

Roll Size:

100m \$640.00 ea  
200m \$1,265.00 ea

Roll Size:

100m \$740.00 ea  
200m \$1,452.00 ea

## Stallion Rail Ultra

### Single Electric Edge

Premium flexible rail made with advanced technology, the carbon fibre molecular bonding delivers ultra-electrical conductivity and flexibility. Stabilized with three high tensile wires Stallion Rail Ultra has one edge of the rail electric. This gives the option of having either only the top or bottom of each rail electric simply by flipping the rail during installation. Manufactured using premium grade UV stabilized medium density polyethylene. Suitable for all types of horses and ponies.

**Roll Size:**

**100m \$620.00 ea**

**200m \$1,210.00 ea**

# STALLIONRAIL

## Stallion Rail

**Non-Electric**

Non-electric rail designed for horse arenas and areas of fencing where electrics are not required. Using the latest technology in molecular bonding of the stabilizing wires, Stallion Rail maintains strength and integrity with flexibility and low maintenance. Manufactured using premium grade UV stabilized medium density polyethylene. Suitable for all types of horses and ponies.

# Insulated Brackets

Suitable for Stallion Rail Ultra / Extreme

## STALLION RAIL STRAIGHT END BRACKET

4" \$22.00 ea 5" \$24.20 ea

Insulated heavy duty steel, hot dipped and powder coated bracket. Ideal for attaching to round, steel or timber posts.

Sold individually or box of 25

Colour:    SPECIAL ORDER

## STALLION RAIL 45° END BRACKET

4" \$22.00 ea 5" \$24.20 ea

Insulated heavy duty steel, hot dipped and powder coated bracket. Attaching end, set on 45deg angle. Ideal for attaching to round, steel or timber posts.

4" Sold individually or box of 25

Colour:    SPECIAL ORDER

## STALLION RAIL TOP CORNER BRACKET

4" \$22.00 ea 5" \$24.20 ea

Insulated heavy duty steel hot dipped and powder coated bracket. Allows the rail to run continuously around corners and curves. Used on top rail.

4" Sold individually or box of 25

Colour:    SPECIAL ORDER

## STALLION RAIL SIDE CORNER BRACKET

4" \$22.00 ea 5" \$24.20 ea

Insulated heavy duty steel hot dipped and powder coated bracket. Allows the rail to run continuously around corners and curves. Used on second, third and fourth rails.

4" Sold individually or box of 25

Colour:    SPECIAL ORDER

## STALLION RAIL SIDE T BRACKET

4" \$27.00 ea 5" Special Order

Insulated heavy duty steel, hot dipped and powder coated bracket. Ideal for attaching to square, round, steel or timber posts. Includes two straight ends.

4" Sold individually or box of 25

Colour:    SPECIAL ORDER

## STALLION RAIL TOP T BRACKET

4" \$27.50 ea

Insulated heavy duty steel, hot dipped and powder coated bracket. Ideal for attaching to square, round, steel or timber posts. Includes two straight ends.

4" Sold individually or box of 25

Colour:    SPECIAL ORDER

# Brackets

Suitable for all Stallion Rail Products

## STALLION RAIL JOINER

4" \$20.00 ea 5" \$22.00 ea

Heavy duty steel hot dipped and powder coated joining bracket.

Sold individually or box of 25

Colour:

## STALLION RAIL TOP BRACKET

4" \$3.50 ea 5" \$3.80 ea

Heavy duty plastic top bracket for attaching top rail.

Sold individually, packs of 25 or boxes of 350

Colour:

## STALLION RAIL SIDE BRACKET

4" \$3.50 ea 5" \$3.80 ea

Heavy duty plastic side bracket for attaching rail to the side of the post.

Sold individually, packs of 25 or boxes of 350

Colour:

## STALLION RAIL TENSIONER

4" \$22.00 ea 5" \$24.20 ea

Heavy duty steel hot dipped and powder coated spooler for tensioning rail.

Sold individually or box of 20

Colour:

## STALLION RAIL SWIVEL JOINING BRACKET

\$38.50 ea

Insulated heavy duty steel, hot dipped and powder coated bracket with two Straight End Brackets included.

Sold individually or box of 25

Colour:

# Brackets

Suitable for Non-Electric Stallion Rail only

**STALLIONRAIL**

## STALLION RAIL NON INSULATED STRAIGHT END BRACKET

4" \$16.50 ea

Heavy duty steel hot dipped and powder coated end bracket.

**Sold individually or box of 25**

Colour:

## STALLION RAIL NON INSULATED 45° END BRACKET

4" \$16.50 ea

Heavy duty steel hot dipped and powder coated bracket. Attaching end, set on 45 deg angle for attaching to round timber posts.

**Sold individually or box of 25**

Colour:

## STALLION RAIL NON INSULATED TOP CORNER BRACKET

4" \$16.50 ea

Non insulated heavy duty steel hot dipped and powder coated bracket. Allows the rail to run continuously. Used on top rail.

**Sold individually or box of 25**

Colour:

## STALLION RAIL NON INSULATED SIDE CORNER BRACKET

4" \$16.50 ea

Non insulated heavy duty steel hot dipped and powder coated bracket. Allows the rail to run continuously around corners or curves. Used on second, third and fourth rails.

**Sold individually or box of 100**

Colour:

# SHOCK COAT

## Shockcoat

The ultimate coated wire for horses, Shockcoat is a first-class superior conductor of electricity. Its capabilities are second to none; with endless possibilities for fencing configurations when combined with Stallion Rail or used as your main fencing choice. High Tensile wire has been skilfully encased using state of the art manufacturing techniques. This has greatly improved the molecular bonding of the conductive carbon compound to the wire as well as the UV stabilised Medium Density Polyethylene. Shockcoat is the safest alternative to plain wire or electric tapes and ropes.

Colour:

SPECIAL ORDER

8mm diameter

Weight: 200m (16kg)  
400m (32kg)

Roll Size:

200m \$240.00 ea  
400m \$462.00 ea

Highly Conductive Carbon Compound molecularly bonded to the wire

Specialised UV Stabilised Polyethene

Galvanised High Tensile Wire

# Brackets

Suitable for Shockcoat only

## SHOCKCOAT PLASTIC INSULATOR

\$1.50 ea

Insulated heavy duty plastic insulator which sits flush against the post. Ideal for timber or plastic posts.

Sold individually or in packs of 25

Colour:    SPECIAL ORDER

## SHOCKCOAT STRAIGHT END BRACKET

\$7.15 ea

Insulated heavy duty steel hot dipped and powder coated bracket. Ideal for attaching to timber or steel posts.

Sold individually or in packs of 25

Colour:    SPECIAL ORDER

## SHOCKCOAT 45° END BRACKET

\$7.15 ea

Insulated heavy duty steel hot dipped and powder coated bracket. Attaching end, set on 45 deg angle. Ideal for attaching to round timber posts.

Sold individually or in packs of 25

Colour:    SPECIAL ORDER

## SHOCKCOAT SCREW IN INSULATOR

\$1.00 ea

Heavy duty plastic insulator. Easily screwed into timber or PVC posts.

Sold individually, packs of 25 or box of 700

Colour:

## SHOCKCOAT COATED WIRE JOINER

\$5.00 ea

Heavy duty steel hot dipped and powder coated joiner for joining two ends of Shockcoat together.

Sold individually or in packs of 50

Colour:    SPECIAL ORDER

# Brackets

Suitable for Shockcoat only

## SHOCKCOAT TENSIONER

\$11.00 ea

Heavy duty steel hot dipped and powder coated round tensioner for tensioning Shockcoat.

Sold individually or in packs of 20

Colour:

## SHOCKCOAT GALVANISED BOLT THROUGH ROLLER

\$8.80 ea

Insulated heavy duty galvanised 300mm x 12mm bolt with roller attached to allow the wire to continuously run around bends of over 45 deg. Ideally suited to steel end assemblies or older timber posts.

Sold individually or in packs of 25

## SHOCKCOAT TOP CORNER ROLLER

\$10.00 ea

Insulated heavy duty galvanised top corner roller for attachment to timber or steel to allow the wire to continuously run around bends of over 45 deg.

Sold individually or in packs of 25

## SHOCKCOAT WELD ON CORNER ROLLER

\$8.80 ea

Insulated heavy duty galvanised weld on corner roller for attachment to steel to allow the wire to continuously run around bends of over 45 deg.

Sold individually or in packs of 25

## SHOCKCOAT HEAVY DUTY CORNER ROLLER

\$11.00 ea

Insulated heavy duty galvanised corner roller for attachment to timber or steel to allow the wire to continuously run around bends of over 45 deg

Sold individually or in packs of 25

## PREMIUM PVC ROUND FENCING POST

### Ask us for a price

Our PVC posts are made from ASA/PVC co-extrusion material. The surface is an ASA material which is the best outdoor plastic for UV resistance, with a thick virgin PVC wall to give strength and rigidity.

The perfect post! Tough enough to be driven in with any post rammer however flexible enough to not snap or injure your horse if they hit it. (Soil type and time of year may require a pilot hole)

**Length: 2.1m, 2.4m**

**Diameter: 90mm, 120mm**

**Sold individually or crates of 80**

**Post Cap Included**

**Colour:**

## GALVANISED STEEL ROUND STRAINER POST

### Ask us for a price

Used as a strainer post in conjunction with the galvanized rail. Steel strainers will outlast any timber strainer / box assembly.

**Thickness: 4mm**

**Size: 100nb x 3m**

**2.4m also available**

**Post Cap Included**

## STEEL GALVANISED OVAL RAIL

### Ask us for a price

Recommended for constructing strainers, box assemblies and small yards. Easily connected with Ezyends.

**Size: 115 x 42 x 2mm x 3.1m**

## GALVANISED ALL THREAD STEEL ROD

**\$16.50 ea**

Used in assembling corner and end assemblies.

**Size: 3.6m x 12mm**

**Sold individually**

## HEAVY DUTY HORSE SAFE GATE

### Ask us for a price

50 x 50mm mesh gates designed to eliminate horses and foals getting their feet caught.

Oval rail top and bottom for extra visibility, strength and safety. Squared corners and hinged.

**Sizes: 2.4m, 3m, 3.6m, 4.2m**

**Colours: Galvanised Steel, Black Powder Coat**

**To suit gap size: 2.4m (actual length 2,350mm)**

**3m (actual length 2,950mm)**

**3.6m (actual length 3,550mm)**

**4.2m (actual length 4,150mm)**

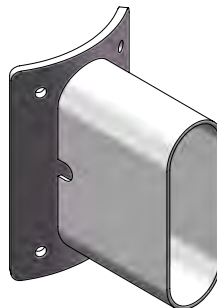

## EZYEND

*Designed by Duncan Equine*

**EzyEnd has been designed to make your life easier:**

- Eliminates the need for welding.
- High quality galvanized steel - no rust.
- Easily drilled to steel or timber posts.
- A unique design with a curved option for round posts or a flat option for square posts and flat surfaces.

### EZYEND CURVED

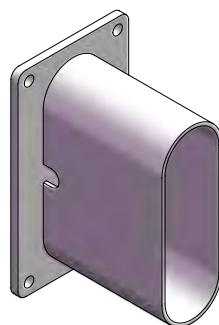

**\$9.99 ea**

Heavy duty steel hot dipped and powder coated joining bracket.

**Sold individually or box of 20**

### EZYEND STRAIGHT

**\$9.99 ea**

Heavy duty steel hot dipped and powder coated joining bracket.

**Sold individually or box of 20**

# Rubber Products

## RUBBER STABLE / WALKWAY MAT

**\$110.00 ea**

Non slip stable mat, great for walkways, stables, floats and trucks. Soft underfoot.

**Weight: 42kg**

**Size: 1830 x 1220 x 18mm**

**Sold individually**

## RUBBER DOG BONE TILE

**\$3.00 ea**

Great for paving stable walkways, soft underfoot.

**Size: 200 x 160 x 43mm**

**Sold individually**

**32 tiles per square metre**

**Colour:**

## RUBBER WASH BAY MAT

**\$77.00 ea**

Non-slip and great for wash bays and wet areas. Can be laid direct and requires no gluing or bolting.

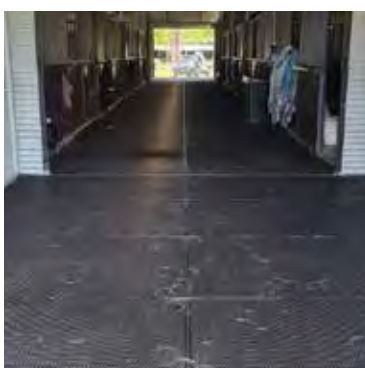

**Weight: 24kg**

**Size: 1205 x 723 x 24mm**

**Sold individually**

## RUBBER MAT

**\$110.00 ea**

Pimple top & channels underneath. Option of interlocking or square edge.

**Size: 2000 x 1000 x 17mm**

**Sold individually**

# Feeders & Waterers

Designed by Duncan Equine, Manufactured in Australia

## Paddock Feeder

**\$90.00 ea**

30% bigger than any paddock feeder on the market with a large base to prevent tipping.

**Size: 94 x 94 x 27cm**  
**52L Capacity**

## Over the Rail Feed Bin

**\$66.00 ea**

These feed bins slot easily over your paddock or yard rails for feeding off the ground. Made from High Molecular Weight Polyethylene HMWPE and easy to clean they will make feeding your horse a breeze.

**Size: 55 x 56 x 36cm**  
**48L Capacity**

## Flush Mount Feed Bin

**\$93.50 ea**

Mount this feed bin anywhere! These feed bins work well in horse shelters, horse stables and yards. Made from High Molecular Weight Polyethylene HMWPE they come with specially designed attaching brackets that stop the horse lifting the bin off the supplied wall bracket.

**Size: 55 x 56 x 36cm**  
**48L Capacity**

## Automatic Waterer

**\$180.00 ea**

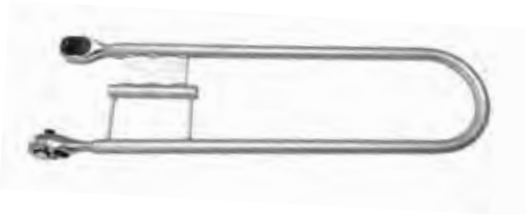

Durable automatic waterers that are perfect for stables, yards or small paddocks. Made from High Molecular Weight Polyethylene HMWPE, they include mounting brackets and float.

**Size: 55 x 56 x 36cm**  
**48L Capacity**

## TENSIONING TOOL - 2 IN 1 EXTENDED RATCHET HANDLE

4" \$85.00 ea

5" \$93.50 ea

2 x Sets of Ratchets are inserted into the end of this tool.  
Allows you to tension the spooler with one hand while inserting the pins. Suitable for using with both Stallion Rail and Shockcoat.

## GALVANISED SPINNER

\$275.00 ea

Make your installation even easier by rolling out two rolls at the same time. (Wire not included)

**Suitable for both rail and coated wire products.**

## GALVANISED TEK SCREW

\$0.25 ea

Galvanized screws used for attaching brackets to steel posts.

**Sold individually  
or boxes of 1000**

## TEK SCREW

\$0.20 ea

Available in black, white.  
Used for attaching brackets.

**Sold individually  
or boxes of 1000**

## COACH SCREW

\$1.95 ea

12mm galvanized coach screw used for attaching end brackets to timber posts.

**Sold individually**

## PURLIN BOLT

\$1.30 ea

Galvanized bolt used to attached End Brackets & Corner brackets to steel posts.

**37mm for welding &  
50mm for bolting with Rivnuts  
Sold individually**

## STALLION RAIL BENDING TOOL

4" \$35.00 ea

5" \$38.50 ea

Helps bend the end of Stallion Rail into the End Brackets.

## TIE UP RING

\$22.00 ea

Large galvanized stable tie-up ring.

## MAINS POWERED

Nemtek's range of electric fencing energizers are robustly designed and manufactured from top quality materials to cater to your specific electric fencing needs.

### 10KM NEMTEK MAINS POWERED ENERGISER

**\$280.50 ea**

The Agri 10km energizers can be powered with a battery or by mains.

### 20KM NEMTEK MAINS POWERED ENERGISER

**\$346.50 ea**

The Agri 20km energizers can be powered with a battery or by mains.

### 50KM NEMTEK MAINS POWERED ENERGISER

**\$583.00 ea**

The Agri 50km energizers can be powered with a battery or by mains.

## SOLAR POWERED

Nemtek's solar product range provide a reliable power source for electric fence systems in remote areas or where AC power is unreliable.

### 8KM NEMTEK SOLAR POWERED ENERGISER

**\$605.00 ea**

The Agri 8km solar energizers include an attached large solar panel and a built-in environmentally friendly Lithium iron battery (LiFe).

### 25KM NEMTEK SOLAR POWERED ENERGISER

**\$869.00 ea**

The Agri 25km solar energizers include an attached large solar panel and a built-in environmentally friendly Lithium iron battery (LiFe).

### 50KM NEMTEK SOLAR POWERED ENERGISER

**\$1,309.00 ea**

The Agri 50km solar energizers include an attached large solar panel and a built-in environmentally friendly Lithium iron battery (LiFe).

## NEMTEK FENCE METER

**\$137.50 ea**

The Nemtek Fence Meter measures the electrical condition of an electric fence.

## NEMTEK 2.5MM UNDERGATE CABLE

**\$51.70 – \$178.20 ea**

Electrical double insulated cable for linking from one electrified area to another.

**Roll Sizes: 25m, 50m, 100m**

# *The Duncan Equine Team is here to help you every step of the way regardless of your fencing budget.*

*The key to a successful fencing project is planning. A master fencing plan, even if you only plan to fence a couple of paddocks at a time, will save you time and money and future proof your property.*

## **ON-FARM CONSULTATIONS**

*Our team regularly travels throughout Australia and is available to visit your property to discuss your requirements.*

*Contact us to see when we are next in your local area.*

## **LAYOUT PLANNING**

*Our experienced team will work with you to design a complementary fencing layout using our complete fencing system, working with you to adapt and modify it to suit your individual requirements and budget.*

## **AFTERCARE**

*At Duncan Equine, we fully back our products, not only with Australian Warranties, but with quick support whenever you need it.*

*We keep our warehouses full stocked, for when you need additional products quickly.*

## **READY TO START YOUR FENCING JOURNEY?**

*Call us on 1800 259 365 or fill out our online quote request form.*
